## **ORAMMA Project Final Event**

Thursday 28th February, 10:30 - 15:30

Maastricht University Campus Brussels  
Avenue de Tervueren 153, 1150 Brussels, Belgium

**[Click here to register for your free place](#)**

The ORAMMA project was funded through the [European Union's Health Programme](#) to develop an approach to maternal healthcare for migrant and refugee women. The project has:

- Assessed the current state of women's health provision for migrants and refugees in project countries.
- Developed the ORAMMA approach to perinatal healthcare which features multi-disciplinary teams of experts, maternity peer supporters and community capacity building.
- Developed and implemented training for health professionals on working with migrant women, both face to face and through e-learning.
- Built the capacity of migrant populations to increase their ability to access healthcare and advocate for themselves, including training migrant women as maternity peer supporters.
- Pilot implemented and assessed the ORAMMA approach in Greece, the Netherlands, and the UK.

The event will feature an overview of the project and its products, a report on the findings of the systematic review and training implementation, and an opportunity to hear from project partners about the results and findings of the feasibility study.

**Places are limited so please confirm your interest as soon as possible.**

### **ORAMMA webinar series: next webinar**

The 4th ORAMMA webinar will take place on Friday 25th January 2019 at 12pm noon UK time.

Join Professor Hora Soltani of Sheffield Hallam University and Eleanor Shaw from the European Midwives Association to hear about the ORAMMA project and the systematic review Hora undertook with the project team to understand the needs of pregnant migrant women engaging with health care. The systematic review was critical to informing the design of the ORAMMA approach, which is currently undergoing a feasibility study in Greece, the Netherlands, and the UK. Hora will share the progress of the UK study.

To register please [click here](#).

After registering, you will receive a confirmation email containing information about joining the webinar.

Click here for the full recordings of [webinar 1](#) with our Greek partners, [webinar 2](#) with our partners in the Netherlands, and [webinar 3](#) with our partners in Crete.

## Disseminating project findings

The ORAMMA team presented the work of the project and some early findings on the experiences of women engaged in ORAMMA in the Netherlands to the European Forum for Primary Care conference on the 25<sup>th</sup> September 2018. The conference was for primary care professionals and participants were keen to see the ORAMMA pilot rolled out to other EU countries.

The ORAMMA team were also invited to spend a day presenting the project

to the general meeting of the European Midwives Association on the 6<sup>th</sup> October in Athens. The conference was attended by senior midwives from European countries who heard about the project design, the project activities so far and some interim results. The ORAMMA team held workshops to hear from participants about the potential for utilizing the project products beyond the life of ORAMMA.
